

## RevenueSource® PRO

The CodeCorrect RevenueSource® PRO product suite meets the revenue cycle management needs of integration partners, healthcare providers, practice management systems and claims clearinghouses. It provides accurate and up-to-date information for codes, compliance, medical necessity determination and revenue improvement – a comprehensive resource that is easy to access and use. KnowledgeSource PRO®, ABN Manager PRO®, and Integrated CodeCheck comprise the CodeCorrect RevenueSource PRO suite.

### KnowledgeSource PRO®

- Optimizes compliance and access to the sources of appropriate revenue.
- Uses the Internet to expedite access to outpatient procedure, diagnosis, modifier and coding intelligence.
- Provides a searchable, cross-referenced access to authoritative documents related to coding and compliance, including Medicare carrier policies and bulletins, One-Time Notifications and much more.
- Supplies code specific information in a searchable, indexed format.
- Includes access to the American Medical Association's Current Procedural Terminology (CPT®)/HCPCS, ICD-9 and ASC groupings.
- Contains code specific content that incorporates multiple cross-references including CPT/RVU, CPT/RVU, CPT/LCD and CPT/Modifier.
- Validates code combinations by checking for RVU ordering, modifier usage, code bundling compatibility and ICD-9 medical necessity.
- Allows users to post questions for personalized responses from a CodeCorrect Coach®.

### Integrated CodeCheck

- Enables seamless integration of the charge entry component with CodeCorrect's code validation capabilities.
- Generates real-time alerts for each charge transaction.
- Highlights transactions that are at odds with current Medicare guidelines for attention and potential correction.
- Reduces denials and re-work.

### ABN Manager PRO®

- Addresses mounting write-offs and productivity issues related to checking on medical necessity and generating Advance Beneficiary Notice (ABN) forms.
- Informs providers and/or front office staff when their Medicare patients may have to pay for certain services.
- Facilitates the generation of a CMS-compliant ABN form for immediate signature by the patient, prior to delivery of related services.
- Complies with the latest CMS requirements and is updated with LCD and NCD changes.
- Tracks the ordering patterns of medical staff for continuing education regarding medical necessity.
